

Healthy Living Week: Healthy Body, Healthy Mind!

Whole School Homework

Create a sculpture or some land art using natural materials that you can find in the outdoors eg. leaves, twigs, stones, seed heads. You might like to look at some of the work produced by Andy Goldsworthy to get some of your own ideas.

Take a photograph of your sculpture and bring this in to share or email it to us. Lastly, give your sculpture a name and tell us what inspired you to create it.

Have fun!
